

2011 Presidential Address

Heather Moore, Med, RT(R)

I am honored that you have given me the opportunity to be your President of the Ohio Society of Radiologic Technologists. I feel very blessed to be in the presence of such a hardworking and dedicated group of professionals who serve their profession and the society in so many different ways.

I am following a great President, Jackie Turk and would like to thank her for her hard work as she paved a clear road for me to follow. I am very lucky to have such a strong leader as my mentor. I just hope that I can be as effective, ambitious and organized as she was.

Moving forward through the rest of 2011 and into 2012, I plan to continue to look for additional ways the OSRT can become a more green society. By doing this we will also become more fiscally sound by decreasing costs such as printing and postage.

In addition, a new appointee has been added with the charge of moving the OSRT forward in its efforts to obtain more corporate sponsors and the Annual Meetings and on the OSRT website.

All of the committees will be directed to work cohesively with one another to maintain the mission of the OSRT and to meet or exceed the expectations of our membership.

I will strongly encourage involvement, especially from those of you who indicated a desire to volunteer on a committee. It takes a village to operate the OSRT. Trust me... we will be contacting you!

I would like to make myself available to any of the members who have questions, concerns or comments and encourage you to contact me directly at heather.moore@uc.edu or through the OSRT website. If you attended the 2011 Annual Meeting, I hope that you benefitted from it and that you plan to attend the 2012 Annual Meeting in Sunny Cleveland

I would like to encourage you to either begin or continue to stay involved with your profession and the OSRT. You truly can make a difference.

Have a wonderful and healthy Spring!
